Transmate

deChlorinator™

Simplify Dechlorination!

With the Transmate deChlorinator™!

The Transmate deChlorinator™ addresses key E.P.A. concerns:

Dechlorinates • Controls pH • Controls turbidity

Maintains dissolved oxygen levels in water

- Quickly dechlorinates released water.
- Allows water utilities to meet regulations for residual chlorine concentration in released water.
- Enables contractors to quickly flush highly chlorinated water in new construction situations.
- No external pumps needed – the deChlorinator™ makes jobs simple!
- Quick disconnects for easy connection to hydrants and extension hose!

Built to last and made to make your job easier – the Transmate deChlorinator™ is right for you.
