Latest In Proximity
Technology With A
Proven Keypad.**

AAS

American Access Systems, Inc.

YOUR PARTNER IN ACCESS CONTROL

Built strong to last long – high-quality means satisfied customers!
This model is built for years of trouble free use by utilizing a rugged, heavy metal, black powder coated enclosure and high grade stainless steel faceplate.

Convenient for multiple applications – one install can do it all!
It can be conveniently configured for use as a stand alone system, or as a remote slave system that can hook up to almost any 26-bit Wiegand controller.

More options means more security – the perfect interface for any customer!
It can be setup to use the prox reader and keypad independently of each other, or to use them in conjunction, allowing for higher security by utilizing both card reader and pin code to fire the relay. There is even an optional printer that can record the entry times and dates of all prox card users.

Other features include:

- Code Capacity for Prox Reader - 2000, Keypad - 100
- Programmable Personal Master Code
- Programmable Latch Code
- Non-volatile memory
- Night Light
- Pinhole Camera (optional)
