

# DSG

**DAKOTA SUPPLY GROUP**  
*For all the right connections!*

## Let DSG's Custom Control Shop Tailor A Panel To Solve Your Unique Water Pumping Puzzle.

- **Safe and Dependable**

Our UL 508 certified panels use long-lasting LED indicators (no need to replace lamps).

- **Lower Costs**

Become more efficient by allowing controllable drives to run your pumps.

- **Metered Monitoring**

Meters track the time each pump has run, to help with scheduling maintenance.

- **Peace of Mind**

Your panel can have all the alarm capabilities needed to carefully monitor your lift station (pump seal fail, low level, high level, or a pump one or two failure) and shut them down to avoid damage.

**DSG's experienced technicians can assemble, deliver, start up (if requested) and provide support for your system. Call DSG today to set up a date for a check-up on your old system and find out how DSG can elevate your lift station controls to a new level!**
