Quality Fittings By Design

## When You Want It To Last, Go With The Green Gasket!

**SDR 26 PVC Heavy Wall Gasketed Sewer Fittings from PTI – install them and forget about them!** Use them where extra heavy (SDR 26) is specified. SDR 26 is for non-pressure drainage of sewage and surface water.

- **New square design of the ring** – permanently locks the ring onto the fitting.
- **Distinctive green rings and gaskets** – for easy identification without having to go down into the trench.
- **Shock absorbing ring** – receives effect of excessive impact.
- **Extra heavy wall thickness behind the gasket race** – absorbs angular deflection.
- **NSF listed** – meets or exceeds ASTM D 3034 SDR 26 standard specs.
- **Minimum SDR 18 wall thickness** – for 4" and 6" branches on our 8", 10" and 12" tees, wyes, and sanitary tees.

**Injection Molded in sizes 4" – 8"**

**Fabricated in sizes 10" – 18"**

**Do it right the first time, with SDR 26 PVC Heavy Wall Gasketed Sewer Fittings – available now at DSG!**
